Example: LOT123

Example: 4 x 5gm units

Example: 61APC

Example: Aerobic Plate Count

Example: USP <61>

Example: <100 CFU/gm

Ambient

Refrigerated

*Please reach out prior to sending rush testing samples to ensure your deadlines can be met and to confirm applicable rush option charges. STAT testing is for incubation dependent tests and will be set up within 24 hours of arrival and will be QA reviewed and reported out the day of completion. Rush and Super Rush options only apply to non-incubation dependent tests.

*All samples submitted on same submission form will be reported under the same final report. Please use multiple forms if you would like multiple reports.

*If submission does not fit on this form, please feel free to attach a listing of requested testing. Please ensure all requested information is included for each requested test.
